- Gained invaluable industrial knowledge and expertise under the guidance of seasoned mentors.
- Earned a certification for successfully completing the internship program.

Projects

Ecommerce Shop! Application

July '24

Technologies Used : React JS, Node JS, Express JS, Mongo DB, Bootstrap, Axios, Render

- Built a MERN application, where users can seamlessly purchase captivating products.
- **Dual User Flows**: Distinct experiences for sellers to manage products and buyers to browse and purchase.
- Created a smooth and **responsive** web page for best user experience. It has functionalities like **robust user authentication**, **product filtering by tags**, **adding to cart**, **user dashboard**, **protected routing** and much more.
- **Link** : <https://ecommerce-website-client-61m8.onrender.com/>

Instagram Profile Application

May '24

Technologies Used : Html, Css, Javascript, Animation Css, Random User Api

- Instagram Profile Developed a platform similar to Instagram, using **HTML**, **CSS**, and **JavaScript**.
- Utilized the **Random User API** for generating user profiles and **Axios** for making **HTTP** requests. Used the JavaScript Random function to add **dynamic elements**.
- Ensured a seamless user experience on both **desktop** and **mobile** devices.
- **Link** : <https://instagram-profile-page.netlify.app/>

Medstart Application

Jun '23

Technologies Used : React JS, Axios, Bootstrap, Material UI, Geofly Api

- MEDSTART, created with **React JS** and **Material UI**, finds nearby hospitals based on your location.
- Clicking on a hospital lets you see details and get **directions** to it
- **Link** : <https://med-start-project04.netlify.app/>
